https://pomofocus.io/
- Clean UI, not distracting, very plain
- Option to set custom times
- Option to Auto start next round
- Option to set tasks and estimate number of pomos
- Responsive

Tomatotimers.com
- Aesthetically appealing
- Distracting animation
- Shouldnt allow pause/restart

https://www.marinaratimer.com/
- Ugly design
- Option to schedule out different amounts of time, and label with tasks
- Shouldnt allow pause/restart

How i would use it:
- For homework or studying
- Monotonous tasks like reading or memorizing stuff
- To remind me of what i'm supposed to be doing so i stay on a schedule

Home office worker:

- Middle aged man, dissatisfied with work life
- Sits in a cubicle all day or works from home at a computer
- Tired of staring at a screen for hours at a time
- Uses timer to schedule short breaks to stay refreshed
